Actuarial Analyst

Deloitte Bermuda is seeking an Actuarial Analyst to join our diverse and dynamic actuarial team.

What will your typical day look like?

You perform research and data analysis, alongside other activities, to support actuarial projects and solutions for our clients. You are a key contributor working to support the team to deliver against project timeframes. You are keen to expand your knowledge in actuarial consulting as well as learn and apply Deloitte methodologies.

The standard requirements of this role include:

- A bachelor's degree in mathematics, Finance, Economics, Science or related discipline.
- Pursuing a professional actuarial designation with an internationally recognized actuarial society.
- Ability to prioritize tasks, work on multiple assignments, work under tight time deadlines, demonstrate sound judgment, critical thinking and analytical skills.
- Ability to work both independently and as part of a team with professionals at all levels.
- Demonstrated client service skills, project management skills, and performance oriented.

Preferred:

- Up to 1 year of relevant work experience is considered an asset.

All candidates must have demonstrated skills in client service and project management relevant to the role. This position requires inclusive team contributors, who have the proven ability to interact with a wide diversity of people across our organization. Candidates must have the ability to work a flexible schedule as needed.

All applications should be submitted online at: www.deloitte.com/bm/careers
Keyword: BM181709EN

Please note to apply for this position you will need to submit a cover letter and CV through the above link.
