

## PATI Request for Animal Control Data

We understand, per your information statement, that you hold records of the number of dogs licensed, number of dogs licensed as a percent of the eligible dog population, total incidents and complaints to which wardens responded, and time taken for the initial response to complaints or incidents. We'd like those records please. - This request is too vague to be honoured. There is no time period specified to narrow the enquiry.

**Also records for 2021 and 2025** on the number of: Dog wardens employed; 5 Animal wardens employed in 2021 & 2025

Vacant dog warden positions - None

Dog licences issued, including a breakdown of licences issued for dogs falling under schedule 2 and 3 of the Act; - Your request for "Dog licences issued" has been interpreted to mean new licences, and does not include renewals.

We do not record dog licences issued by year, however, we do have records of dogs added to our database in 2021 and 2025, and which have (or had) licences.

Dogs seized, with breed and restricted/prohibited status of each dog, and the relevant section of the Act they were seized under;

I cannot be certain of your intended meaning in your use of the word “seized”, as we differentiate “seized” from “found”. Thus, I have included dogs listed as either ‘seized’ or ‘found’. These do not include surrendered dogs.

All dogs seized were done so under either Section 13 of the Dogs Act 2008 and/or Section 8 of the Care and Protection of Animals Act 1975. Distinction can be inferred by the nature of the complaint.
