

BERMUDA MONETARY AUTHORITY

Bermuda Monetary Authority is committed to attracting and developing the very best people who are dedicated to providing exceptional service.

Senior Officer – Analytical Reporting Risk Analytics Department

The Authority is seeking the services of a skilled and capable individual to work as Senior Officer – Analytical Reporting in our Risk Analytics Department (“RAD”). The Senior Officer reports to the Director and will work through all phases of the Software Development Life Cycle (SDLC) to produce integrated and quality analytical reporting, that adheres to best practice report development controls. The successful candidate will be responsible for continually updating and improving the analytical capabilities of the Authority's Risk Outlook, the insurance Bermuda Solvency Capital Requirement (BSCR) risk-based capital model and other reports required of RAD and the development of an early warning framework/system.

In this key role, you will be responsible for:

- Utilizing Microsoft Excel and other software applications to develop analytical reports that both enhance the evaluation and/or risk impact identification and reporting, and improve risk assessment;
- Undertaking projects to improve industry sector forward analytics that impact regulatory regimes and developments within the financial services industry;
- Performing in-depth risk analysis of insurance companies and insurance groups as requested.
- Performing various other relevant research/analytic projects arising from day to day activities on topical issues with the purpose of disseminating and presenting the information, providing data driven guidance and advice to RAD staff and to other relevant stakeholders as required;
- Performing other related work and special projects as assigned by management in accordance with competencies normally associated with the post.

This position requires a proven technical and business background and must include the following:

- A Master's Degree and/or equivalent qualifications in Insurance, Finance or Accounting from a recognized institution or professional body.
- A minimum of seven (7) years graduate experience in the financial services industry, particularly insurance analytics, and/or working experience with a financial services regulatory body is required.
- A sound and practical knowledge of the full software development life-cycle, and analytical report development in a financial services environment.
- Exceptional analytical and modeling skills, good interpersonal and communications (written and oral) skills;
- The ability to assimilate facts, analyze and prioritize information to ensure accuracy and conformity of procedures with respect to risk assessment;

If you are looking for a challenging opportunity in a team environment, we invite you to submit your application via our email address at careers@bma.bm, including a detailed resume and a completed Bermuda Monetary Authority Application Form, available at www.bma.bm. Applications for this position must clearly bear the reference 130/028/11 and be received no later than November 24, 2011.

Bermuda Monetary Authority is an Equal Opportunity Employer.
