

FIRE ALARM TECHNICIAN

Bermuda Energy Services Company Limited (BESCO) requires a qualified Fire Alarm controls technician/foreman for a wide variety of commercial and industrial customers. BESCO is the Bermuda distributor for Honeywell and Johnson Controls.

The successful candidate will have a minimum of five years experience in the installation and commissioning of control systems for commercial and industrial applications. Applicants will be under the direction of the Senior Fire Alarm Specialist and should have a proven track record for managing installation projects including staff supervision, cost tracking and communication with clients.

The position requires strong written and verbal communication skills. The successful candidate must be a qualified journeyman electrician and have strong fire alarm installation, troubleshooting, commissioning and service experience. A complete understanding of the National Electric Code is required. Experience with Johnson IFC-640 and Honeywell XLS-140 and XLS-1000 fire systems would be preferred.

Strong computer skills and experience with MS Excel and Word are also necessary. The successful candidate must be willing to work extended hours, nights, weekends and holidays, or as required on a project basis, have a clean driving record and be licensed to operate a small truck.

Remuneration will be competitive with industry standards and commensurate with qualifications and experience. An attractive health and benefits plan will be provided.
