VP Underwriting – Reinsurance

The successful candidate will be responsible for production, marketing and analysis of reinsurance, predominantly International and Retrocessional Property Catastrophe lines. The individual must possess a strong worldwide Property Cat Excess of Loss background, with a focus on International business, as well as established broker and client relationships. The successful candidate will be highly results-oriented and able to garner immediate credibility both inside and outside the organization.

Responsibilities:

- Underwrite and manage a portfolio of Property Cat XL covers, both Retrocessional and International, with a focus on International business
- Work with various data sources to derive information for analysis purposes
- Verify and assess the adequacy of exposure information for pricing analysis
- Analyze and model, concluding with recommendations on assumed primary and retrocessional catastrophe excess of loss submissions, capital market transactions and non-catastrophe risks
- Maintain key relationships with Property Catastrophe reinsurance clients and brokers, and develop new business opportunities from those relationships
- Work with clients to determine specific requirements and subsequently structure products to address those needs (and variants from those needs)
- Engage extensively in projects related to the improvement of RenRe's proprietary model, to include catastrophe modeling, underwriting, and portfolio management
- Manage catastrophe analysts, both transactional and project-focused
- Be willing to undertake significant travel and interaction with clients and brokers

Education, Skills & Experience:

- A university degree with an emphasis on economics, mathematic probabilities, or statistics techniques or simulation; advanced scientific degree advantageous
- Detailed knowledge of worldwide insurance and reinsurance markets
- At least 8 years' experience in the reinsurance industry, with a large portion in an underwriting capacity
- Experience in structuring and pricing reinsurance programs
- Knowledge of accounting implications of reinsurance structures
- Extensive industry contacts including established relationships London/Lloyd's brokers
- Strong reputation and proven track record of developing relationships with intermediaries and clients, while retaining complete underwriting objectivity
- Excellent analytical, communication and interpersonal skills
- Excellent computer skills and knowledge of database manipulation tools
- Thorough understanding of computer systems and applications
- Experience with, and knowledge of, different catastrophe models
- Proficient knowledge of probability and statistics
- Proficient in Microsoft Office suite of tools as well as additional programs such as @RISK and SQL

This is an excellent opportunity for a flexible individual who is a self-starter with the ability to be productive under pressure. This is a fast-paced and rapidly changing business environment that requires an energetic and enthusiastic approach, along with maturity, self-confidence and self-motivation.

Interested persons should apply by sending a Curriculum Vitae via e-mail to careers@renre.com, no later than Tuesday, January 24, 2012.
