Assistant Director - Actuarial (Property and Casualty) Risk Analytics

The Authority is seeking the services of a skilled individual to work as Assistant Director – Actuarial (Property and Casualty) in our Risk Analytics Department. Reporting to the Deputy Director, the post holder will be responsible for the supervision of regulated entities focusing on underwriting, reserving, risk aggregating processes and assessment of capital requirements.

In this key role, you will be responsible for:

- Supporting the Department in the development and application of statistical and financial analytics, and the assessment of internal capital model applications;
- Supporting the Insurance – Complex Institutions Department with onsite inspections, particularly as it relates to establishing the appropriateness of insurer reserving practices and compliance with applicable legislation, codes and guidance;
- Supporting the Insurance – Licensing and Authorisations Department in relation to insurer applications and authorisation requests;
- Developing industry benchmarks for methodologies and assumptions used to research and develop best practices for regulatory analytics;
- Representing the Authority at various local and international meetings, conferences and seminars involving meetings and information exchanges with regulatory bodies, government agencies and the financial services industry to maintain and develop key relationships whilst keeping abreast of industry trends.

This position requires a proven technical and business background. As such the post holder must possess:

- A Master's degree or equivalent qualification in actuarial science, mathematics, statistics, finance or related quantitative field.
- A minimum of ten (10) years relevant post graduate experience of which at least five (5) years should be at a senior level in the insurance industry, specialising in property, casualty and financial guarantee lines of business.
