Environmental, Safety and Engineering Technician

Bermuda Electric Light Company Limited (BELCO) is pleased to invite applications for the position, Environmental Safety and Engineering Technician.

Job description: Responsible for giving advice and making recommendations on all matters related to Environmental and Safety activities and programs to the Senior Manager, Occupational Health, Safety and Environment and working closely with Engineering work groups and business centre leaders to ensure compliance with all environmental and safety related legislation. The Environmental, Safety and Engineering Technician is required to assist with the implementation and monitoring of activities recommended to support environmental and safety initiatives and the overall development and implementation of management systems. The successful candidate will also maintain adherence to established environmental and safety development practices, procedures and standards; analyzing and reporting problem areas and ensure compliance with established environmental and safety management systems.

Education and Experience Requirements:

- A degree in Occupational Safety, Health and Environment
- International recognized technical qualification in a relevant field or equivalent work experience
- Five years prior experience in a utility based industrial environment in a similar capacity
- In-depth knowledge of Occupational Safety, Health and Environment legislation and regulatory standards and applicable codes of practice
- Practical and Technical knowledge of power generation and/or transmission and distribution of electricity
- Strong analytical and problem-solving skills
- Excellent observational skills
- Excellent organizational and time management skills
- Working knowledge of various safety training programs
- Respect for confidential information
- Assertive
- Dependable
- Proactive
- Flexible
