## SVP, Head of Risk Analytics

Our client, Montpelier Group, provides customized, innovative, and timely reinsurance and insurance solutions to the global market. On behalf of Montpelier, we invite applications for the position of SVP, Head of Risk Analytics.

### Duties & Responsibilities:

- Lead and execute catastrophic risk model research
- Develop "house view" of catastrophic risk & best-estimate assumptions
- Review and integrate alternate sources of hazard and vulnerability assumptions
- Quantify hazard and vulnerability ranges, including model uncertainty and parameter risk at the region/peril level
- Develop catastrophe pricing tools for natural catastrophe and manmade risk, including vendor model-independent approaches
- Incorporate cost saving alternatives to traditional risk analytic approaches
- Develop and integrate in-house catastrophe model development for non-modeled regions and perils
- Engage specifically in strategic planning initiatives, portfolio management and corporate execution needs
- Actively develop new risk analytic capabilities for existing and new business initiatives
- Engage in detailed business planning/portfolio optimization/capital allocation
- Enterprise Risk Management

### Minimum Qualifications, Skills & Experience:

- Leading edge cat model research / development skills
- Ten years of cat model research / development experience
- Seven years of hazard research experience
- Seven years of management experience
- Five years of catastrophe modeling experience
- Prior experience integrating catastrophic risk tools within catastrophic risk underwriting operations preferred
- Post-Graduate degree in Geoscience or related field
