

# DETAILS Management Ltd.

Details Management Ltd, on behalf of our client, a privately-held Bermuda-domiciled property catastrophe reinsurer, is seeking a Catastrophe Modeler to join their team.

## **Key Responsibilities of the Position:**

Responsible for manipulating large databases of property insurance data, running catastrophe models, analyzing loss estimates, and presenting the results to internal team members and external clients.

## **Specific Skills Required:**

- Ability to perform sophisticated risk analysis using RMS, AIR and EQE models for overall portfolio construction, support of reinsurance structuring options and technical evaluation of individual transactions.
- Deep understanding of peril-specific modeling methodologies and sensitivities, including guidance as to the best practices associated with use of the various models and the impact of model changes.
- Deep understanding of actual loss history relative to the models and ability to further build on such understanding and apply such knowledge in the underwriting process.
- Ability to develop and communicate, internally and externally as necessary, a position on advances in catastrophe modeling and new findings in the understanding of earthquake and hurricane perils.
- Detail oriented candidate with the ability to learn quickly and exhibit strong analytical and organizational skills.

## **Work Experience Requirements:**

- The candidate should possess a minimum of 6 years of work experience in running all 3 major catastrophe models and have data analysis experience using MS Access and SQL.
- Candidates with actuarial or property catastrophe underwriting experience are preferred.

## **Educational Requirements:**

- Engineering or Science background
- Bachelors Degree in any of the following: Civil and/or Structural Engineering, Financial Engineering, Operations Research, Industrial Engineering, Applied Math, Urban Planning, Econometrics, Science, Statistics or other related fields.

The Company offers an attractive compensation and benefits package and the opportunity for growth in a dynamic business environment.

Written applications with Curriculum Vitae and two professional references should be forwarded to: [hr@details.bm](mailto:hr@details.bm)
