

Nova Limited

Nova is a software development consulting company. We provide custom software solutions, strategic information systems planning and design as well as automated infrastructure solutions for the financial and insurance industry.

Senior Business Intelligence and .NET Developer

As a member of a dynamic team, you will be responsible for the design, development, testing, support and documentation of complex client/server and web applications. You will also work with our client's business leaders and analysts to define and document detailed requirements. You will also be expected to demonstrate the use of industry best practices and procedures in the complete solution development life cycle. You will need to manage your own time and manage client expectations.

Qualification Requirements:

- Minimum 5 years practical experience in developing Business Intelligence solutions, preferably with the Microsoft BI products
- Minimum 4 years work experience in software engineering and work-related .NET development preferably in C#
- Experienced with the Microsoft BI products including SQL Server database, Analysis Services, Reporting Services and Integration Services
- Data analysis, logical and physical database design experience
- Strong working experience of ETL tools such as SQL Server Integration Services (SSIS)
- MDX solutions with Microsoft SQL
- Good knowledge of Kimball dimensional modelling techniques
- Experience with Unit Testing Frameworks and Agile Methodology
- Object Oriented development and understanding of design patterns
- Excellent verbal and written communications skills with both business and technical personnel
- Ability to effectively prioritise and execute tasks under pressure
- Experience developing solutions for insurance or finance industries. (Direct experience in software development at a bank, hedge fund, financial investment, insurance or reinsurance company)

Education Requirements:

B.A. in Computer Science or diploma in Computer Systems Technology or equivalent Microsoft Certification in Software Development

Upon request, applicants will be expected to submit in a code sample to demonstrate understanding of required qualifications.

Please submit a CV and cover letter to the following.
