many of Bermuda's finest
employers. Beecher Carlson
is one of them.*

Accounting Manager

Beecher Carlson is looking to recruit a dynamic, self motivated professional for the position of Accounting Manager. The position will report directly to the Senior Vice President, in Charge of Captive Operations. The primary responsibility will be the accounting and supervision of captive and rent-a-captive insurance companies under management.

Key responsibilities will include:

- Oversee and coordinate all financial reporting activity for captive accounts, including managing audit processes, statutory reporting and coordination of actuarial analyses
- Preparation of claims reconciliations including vendor management for captive programs, and claims bordereau management
- Oversee daily and monthly cash flow submissions for captive accounts
- Perform financial modeling for new captives
- Act as the technical accounting and regulatory resource for captives, advising upon and keeping abreast of changes in US GAAP, IFRS, Solvency II, CISSA etc
- Provide support for all financial reporting activities, including preparing and presenting Board materials
- Undertake special projects as assigned

Required skills, qualifications and experience:

- A qualified Chartered Accountant (CA or CPA) with at least 3 years post qualification experience within the financial services or professional services sector
- Captive management accounting experience and/or reinsurance experience
- Knowledge of U.S GAAP, especially as it relates to captives and insurance operations
- The role requires an in-depth, practical knowledge of IFRS, in addition to the practical application of FASB 90-1 being desirable, current or previous experience in a technical accounting role would be an asset
- Practical experience of J-Sox compliance would be desirable, as the individual will be working on a large captive account within a highly structured corporate environment with strict reporting deadlines
- Experience of BMA statutory reporting requirements specifically relating to Solvency II and CISSA
- Ability and willingness to work overtime to meet tight deadlines with minimum supervision

In terms of personal qualities, the role requires the following:

- The role has a highly analytical content so a sound mathematical and analytical decision making capability will be important
- Proficiency with Microsoft office applications Excel, Word, PowerPoint
- Excellent time management, organizational, written and verbal communication skills
- A strong work ethic, coupled with a high degree of motivation to work independently or as part of a team
