Plant Engineer

Bermuda Electric Light Company Limited (BELCO) is pleased to invite applications for the position, Plant Engineer, reporting to the Vice President, Energy Supply, in the Plant Management, Energy Supply business centre in the Operations Group.

Job description: The Plant Engineer acts as technical resource person for the Plant Management and Operations Centre staff and will have extensive hands-on involvement with plant operations and running maintenance. The Plant Engineer is responsible for ensuring plant reliability and improvements, providing advice and technical support for plant and equipment maintenance, operational procedures and safety standards. The successful candidate will monitor and enhance plant and personnel safety, as well as, liaise with other engineering professionals and/or external consultants or vendors to discuss/resolve plant issues. Also ensures that operational procedures and safety standards are applied and up to date. In addition, the Plant Engineer will be required to provide Vice President, Energy Supply with monthly reports regarding plant activities and issues.

Education and Experience Requirements: HNC qualifications, Marine Engineer First Class Certificate (Motor and Steam) or Power Engineer, First Class or equivalent qualifications. Consideration will be given to ONC or equivalent qualifications with 10 years of experience. A minimum of five years working experience in the operations and maintenance of a diesel and gas turbine electric generating plant environment.

Candidate must possess strong communications skills, proven decision making skills, and proactive problem-solving skills. Ensure that they carry out their duties in a manner that is in compliance with the organization's environmental and occupational health and safety management systems. Must personify safety and operational standards when completing work, as well as technical skills and a commitment to developing the skills of co-workers and other members of the plant.

Please apply in writing by June 8, 2012 to:
