

The Company

This is a new position at ILS Investment Management Ltd ("ILSIM"), a small, independent investment manager headquartered in Hamilton, Bermuda. ILSIM is part of the Armour Group; a Bermuda based group of insurance, reinsurance and service companies which specialize in the creation and implementation of solutions and acquisitions within the distressed, discontinued and other specialty sectors of the global insurance and reinsurance marketplace. ILSIM focuses on non-Cat insurance and reinsurance transactions.

The principals of the Armour Group are acquisition oriented and this position will have the opportunity to participate in the assessment and execution of M&A transactions in this space.

Role Description

The role will require preparation and documentation of analyses of insurance/reinsurance companies and portfolios, in particular the actuarial and financial modeling to support transaction pricing decisions. Ability to work as part of a multi-disciplinary team assisting in transaction analysis with claims and finance units is fundamental to the position.

The role requires a broad actuarial background covering a range of non-Cat P&C lines of business, encompassing knowledge of insurance and reinsurance principles, practices and procedures including loss development analysis and commutation experience.

Qualifications and Skills Required

- ▶ An Actuarial qualification FCAS, FIA or equivalent is required
- ▶ Project Management experience
- ▶ Strong communication and interpersonal skills
- ▶ Ability to work effectively both at managerial levels and with a range of professionals from different disciplines both internally and externally
- ▶ Excellent organizational skills
- ▶ Sound decision-making and problem solving skills
- ▶ Experience in the insurance or reinsurance sector would be an asset

Please apply in writing, no later than July 13, 2012, with a detailed resume to: Ailsa Martin amartin@armourre.bm
