Management Information Analyst

Our client, Hiscox Bermuda, is a Class 4 Bermuda-based insurer and reinsurer writing a balance mix of reinsurance and retail business.

The role

The primary responsibility of this position is to provide company-wide analysis of underwriting results, business planning, budgeting and forecasting, and regular monthly reporting as well as ad-hoc projects that may involve analysing large losses, general loss reserving, and researching new operating models. In addition this role will have significant involvement in Solvency II related activities including parameterisation and maintenance of the company's internal capital model.

The requirements

- Undergraduate degree in a relevant field (e.g. mathematics, statistics)
- Qualified actuary, or completion of at least 4 SOA/CAS exams and on track to attain ACAS/ASA designation (or equivalent) within the next 12 – 18 months
- At least 3 years quantitative analysis experience within the re/insurance industry including property cat loss reserving experience
- Previous Tableau experience
- Extensive experience with data extraction and manipulation from databases utilizing SQL
- Remetrica experience advantageous
- Proven track record of preparation and presentation of analysis to senior management
- Advanced and proven financial, analytical and organizational skills
- Familiarity with Solvency II and the Bermuda Insurance Solvency Framework
- Advanced Microsoft Office skills, particularly Excel, Access and PowerPoint
- Sound business acumen and understanding of finance principles
- Excellent written and verbal communication skills

Interested? Please email jobs@expertise.bm.

All enquires will be dealt with in strict confidence.

Closing date: July 23, 2012
