

Tiresias Capital Bermuda Ltd.

is seeking to appoint a
Senior Risk Arbitrage Analyst

The Company is the manager of a top performing event driven hedge fund, covering mutual funds and institutional investor portfolios and strategies. The company combines demonstrated trading expertise with strong emphasis on the proactive management of risk and is committed to offering investors a liquid and transparent investment opportunity.

Responsibilities:

Development and execution of event driven, relative value and long/short investment ideas, with focus on the Asia-Pacific region. Ability to analyze special situations in all major regional equity markets from Australia to India, with some familiarity of European and North American markets preferred.

Qualifications:

- University degree, preferably in a finance or mathematical field.
- Minimum 3 years experience as an investment analyst in an event-driven/merger arbitrage strategy.
- In-depth understanding of Asian equity markets, exchanges and regulations, and related hedging products (such as NDFs) is a must.
- Ability to leverage existing broker relationships in the region.
- Strong understanding of portfolio/risk management and ability to quickly assess risk/return.
- Strong mathematical, modelling skills with high level of attention to detail.
- Solid understanding of Bloomberg and Excel, with working knowledge of VBA, Tradar preferred.

We are looking for candidates who have excellent interpersonal and organization skills, and are comfortable working in a fast-paced environment. Interested individuals should apply in writing with detailed CV to:
