

**ARGO GROUP**

*Get there together*

## CATASTROPHE RISK ANALYST

Argo Group is an international specialty underwriter which offers through its operating subsidiaries high-quality commercial Property and Casualty insurance and reinsurance products and services that are tailored to the needs of businesses and public entities. We leverage the experience, discipline and expertise of our people and an understanding of our customers' needs to provide a diverse portfolio of products and services.

Argo Group, is inviting applications for the position of **Catastrophe Risk Analyst**, to work in their Bermuda office.

Working in a highly professional environment, the **Catastrophe Risk Analyst** role requires an enthusiastic and energetic person. The candidate will be required to conduct analyses to assist the underwriter in the selection, assessment and management of risk. As Argo Group conducts business in a variety of different time zones, the successful candidate must be prepared to work additional hours as and when required by the demands of the business.

### ***Duties and responsibilities:***

- Deliver and explain analysis results to underwriters and senior management on a day to day basis.
- Act as a facilitator between catastrophe modeling analysis, underwriting analysis and technical product development.
- Accurately input reinsurance submission data into the appropriate models in order to produce timely results to aid underwriters in the selection of risk.
- Contribute to the development of standard Risk Modeling conventions and to the analysis of the department's information regarding the underlying data & contracts.
- Assist with Argo Group analysis/ aggregation when required.
- Assist with the process of portfolio maintenance as required.
- Assist with the process of maintaining, enhancing & developing models as required.
- Attend industry conferences and transfer knowledge to the Risk Modeling Department on current developments.
- Help when necessary by performing other work related duties, which may arise from time to time.

### ***Qualifications:***

- At least 3 years experience using Property Catastrophe Risk Modeling Software in a team oriented underwriting environment.
- Experience and/or accredited training with either AIR or RMS software.
- A university degree in a relevant discipline (math or science).
- Experience with computer programming using languages like SQL, Matlab, Visual Basic, PowerBuilder, or Perl would be advantageous.
- Must be proficient with the relevant Microsoft Office Suite of Applications.
- Strong organizational skills, verbal and written communication skills are essential.
- The ability to work as part of a team is mandatory.

**Qualified candidates should submit a detailed résumé with references to Human Resources, Argo Group, P.O. Box HM 1282, Hamilton HM FX or to [hrbermuda@argolimited.com](mailto:hrbermuda@argolimited.com).**

**Closing date for applicants is September 11, 2012.**
