- Development of new business through marketing and sales activities
- Contributing to the development of new products and services
- Marketing and raising the profile of the actuarial practice
- Conducting reinsurance pricing and special actuarial projects
- Supporting the audit department on client projects as needed
- Sharing knowledge and experience and contributing to the development of the team
- Be an integral member of the KPMG reserving practice and the Advisory practice as a whole
- A willingness to travel at short notice if required

Qualifications:

- Substantial completion of actuarial qualifications is essential
- A minimum of 3 years working in a similar role
- The ability to effectively work on concurrent engagements
- Strong technical and communication skills (both written and oral) and the ability to deal with clients and staff at all levels
- Experience of insurance regulatory regimes including working on Solvency II projects
- Flexibility and an enjoyment of working on challenging projects, and interacting with teams from other business groups
- Ability to work overtime as required by the business to meet tight deadlines
