

MASS LTD.
Machining, Fabrication and Steel Sales
Requires a
WELDER/FABRICATOR

The successful applicant must have a minimum of 5 years' experience as a welder/fabricator, and must also be able to read engineered plans to complete complex fabricating assignments. Mass Ltd is responsible for completing many Aluminum and Stainless Steel welding projects. As such, Aluminum and Stainless Steel welding to a high degree of precision is required by our welder. Qualifications and in-house testing will be required by all applicants. Qualifications and proof of certification in the following areas must also be shown: ARC/HELI ARC/TIG/MIG/OXYACET. Our company is looking for a hands-on individual who is willing and able to perform a varied set of tasks, including using the plasma cutter, drill press, driving a forklift, loading and unloading steel, maintaining equipment. The successful applicant must be hardworking, able to balance multiple demands, be a good timekeeper, and work under minimum supervision. Occasional weekend and night work will be required. Lathe and milling knowledge would be an asset. Must have a Bermuda National Occupational Certification of Welders card, and a portfolio of fabrication jobs completed to date.

Applicant must have own transportation.

Mass Ltd. is a smoke free, drug free work place.
All potential/successful candidates will be drug tested.

Closing Date: October 12th 2012
