

In response to the demands of our growing business we are seeking motivated individuals to join our dynamic company. If you are talented, creative and willing to accept the challenge of contributing to the success of North Rock Communications, we want you on our team.

Technical Solutions Specialist - Database / Systems Developer

North Rock Communications requires an experienced developer to lead the upgrade of our billing and accounting software. They will be responsible for the development of the following systems: billing applications, internal and external web applications, telephony databases, and various WiMax wireless systems. Candidates are expected to have experience in these areas; and must pro-actively educate themselves on these topics and interact with their teammates in order to familiarize themselves with the existing environment.

Requirements:

- Degree in Computer Science, Engineering, or demonstrable equivalent experience
- Administrative knowledge of Windows Server and Linux environments
- Experience maintaining applications in a production environment
- Experience with PHP, along with one or more: Perl, Ruby, Python, JavaScript, Xpath
- Experience with SQL Server 2005+ and MySQL 5+, ideally including
- Demonstrable skills with either MySQL or SQL Server SQL dialects
- Large scale datasets (50+ million records)
- Stored procedure development
- Star schemas
- General administration of backup, replications, etc.
- Exposure to service provider internet access billing systems
- Exposure to wireless networks and their components; specifically WiMax
- Exposure to voice systems and their components; specifically billing systems
- Must be able to work well under pressure and within time constraints
- Must be willing to work overtime and nonstandard hours as needed.
- Excellent oral and written communication skills
- Excellent communication and customer service skills.

North Rock Communications provides a competitive compensation and benefits package. The successful candidate will be involved in a leading edge, telecommunications environment that encourages professional excellence, personal development and customer satisfaction.
