SENIOR TECHNOLOGIST ANATOMIC PATHOLOGY (HISTOLOGY/CYTOLOGY)

LABORATORY DEPARTMENT

BHB ensures the highest in quality health care through service excellence, education and leadership. We seek qualified, highly motivated, and experienced professionals to work in a supportive but demanding environment.

Key responsibilities include:

- Monitors the operations of designated areas to ensure that the approved laboratory services, standards, goals and objectives are met
- Assists the Pathologist, as directed, in the development and implementation of clinical tests
- Assigns work to the technologists, laboratory aides, and other support staff as appropriate and ensures that job expectations are met by all. Develops precise expectations to effectively balance work flow and regularly divides work into manageable activities
- Provides technical direction concerning unusual problems encountered in routine and special testing. Effectively resolves problems at early stages, and makes sound decisions under pressure. Consistently applies scientific principles to the resolution of technical problems while following standard laboratory guidelines. Appropriate referrals must be made to the Pathologist when necessary

Qualifications &/ Registration required:

- Bachelor of Science in Medical Technology, Higher National Certification or Diploma in Medical Technology with additional training and certification in Cytology and/or Histology
- Registration with a professional licensing body in medical technology (Histology/Cytology) such as A.S.C.P. or equivalent
- Maintains accreditation standards i.e. Joint Commission International Accreditation Canada
- Diploma in Supervisory Management to be completed after appointment
- Must be able to register with Bermuda Council for Allied Health Professions
- No less than five (5) years post graduate experience in Cytology and/or Histology in a medical laboratory

Schedule: 35 hours per week (includes days/evenings/nights/weekends/public holidays and shift rotations)
