SENIOR ACCOUNT MANAGERS (SALES)

We are seeking dynamic individuals to assist our growing client base to fully utilize computer technology to better advantage. Responsibilities will include the management of an existing customer base, as well as the development of new accounts in all areas of the business community.

Industry knowledge and experience is required and the successful candidates will need at least 3 years experience and success in selling technology into the corporate environment. Knowledge of purchasing and dealing with the overseas vendor community based in Latin America would be a requirement. A formal business or marketing degree would also be a useful asset.

The ideal candidates will blend in with our team, and benefit through working with leading edge technology in a motivating environment. An excellent salary and benefits package will be offered to the right individuals.

Applications in writing only, accompanied by a resume and references should be forwarded to:
