

SYSTEM ARCHITECT

COMPANY DETAILS:

Orbis is a Bermuda-based investment company managing long-only equity and absolute return funds. Orbis strives to attract talented individuals who have demonstrated an ability to excel.

ROLE & RESPONSIBILITIES:

As a leading member of our expanding IT team, the System Architect will be responsible for designing Orbis' in-house built global systems for Client Transactions. The successful candidate will need to be confident in designing and implementing robust and scalable software architectures for complex financial software systems and integrating with 3rd party service provider products.

KEY STRENGTHS:

Accurate, with a keen attention to detail; Ability to conduct hands-on design, coding and troubleshooting of complex software systems, including deep understanding of one or more object oriented programming languages, such as C# and Java, and a broad range of modern software development tools and frameworks; Positive attitude, combined with an honest and trustworthy manner; Extremely self-motivated with demonstrated good judgment and methodical approach to software engineering; Excellent technical leadership, communication and organizational skills.

TECHNICAL QUALIFICATIONS:

The successful candidate will possess an excellent academic record and, at a minimum, a Bachelor's Degree from a reputable university in IT or a numerate discipline. A Master's Degree is considered a definite advantage. In addition candidates must possess advanced level software development skills in all of the following areas: SQL Server, C# or similar object oriented programming, web and mobile application development, NServiceBus, MSMQ, ORM and WCF. Experience in developing a real-time transactional financial system is required.

SUBMISSION DETAILS:

Applications will be dealt with in strict confidence and interested candidates should apply in writing or via email with a detailed résumé to:
