

Nova Limited

Nova is a software development consulting company. We provide custom software solutions, strategic information systems planning and design as well as automated infrastructure solutions for the financial and insurance industry.

Senior Software Developer

As a member of a dynamic team, you will be responsible for the design, development, testing, support and documentation of complex client/server and web applications. You will also work with our client's business leaders and analysts to define and document detailed requirements. You will also be expected to demonstrate the use of industry best practices and procedures in the complete solution development life cycle. You will need to manage your own time and manage client expectations.

Qualification Requirements:

- Minimum 6 years' experience and work-related .NET development preferably in C#
- Experience in using WCF, WPF, ASP.NET (preferably MVC), ADO.NET
- Experience developing solutions in the insurance or financial industries. (Direct experience in software development at a bank, hedge fund, financial investment, insurance or reinsurance company)
- Microsoft SQL Server 2008 R2 database development and administration
- Excellent oral and written communication skills
- Very strong problem solving and analytical skills
- Ability to organise work priorities and effective time management skills are essential
- Ability to make decisions and quickly resolve problems in a fast-paced environment while ensuring appropriate risk management and proper escalation / notification procedures are carried out
- Team player with exceptional customer service skills

Education Requirements:

Computer Science Degree or Microsoft Certification in Software Development

Upon request, applicants will be expected to submit in a code sample to demonstrate understanding of required qualifications.
