

Arch Reinsurance Ltd. (Bermuda) provides specialty property, casualty and life reinsurance products through reinsurance intermediaries worldwide. These programs range from Property Catastrophe and Property Excess of Loss reinsurance to Professional Liability and Marine Treaties. Our Bermuda-based operation has a strong, proven management team, a commitment to underwriting discipline, and financial strength that is rated A (Excellent) by A.M. Best and A+ by S&P. We invite applications for the position of:

Property Underwriter

The Property Underwriter will assist with pricing and developing a significant book of facultative business in the property reinsurance marketplace, on a worldwide basis. The position will target very complex and structured property placements requiring the utilization of advanced pricing techniques. The individual will report directly to the Chief Underwriting Officer and will assist in coordinating all stages of the pricing and underwriting process. This position requires a thorough knowledge of Arch Re's pricing and modeling techniques, an in-depth understanding of the large commercial and industrial insurance property product and market, as well as being proficient in MS excel.

Duties & Responsibilities:

- Performing underwriting assessments, including risk analysis, engineering survey reviews, natural perils exposure analysis and policy wording review.
- Pricing and analyzing various facultative reinsurance structures (Quota Share, Excess, Aggregate and others).
- Coordinating with the modeling team for both pricing and aggregation of natural perils on the property facultative portfolio.
- Negotiating contracts and assuring profitability of business written.
- Developing and maintaining client and broker relationships with emphasis on the London and North American markets
- Marketing to senior level clients and brokers
- Evaluating client financial objectives

Qualifications, Skills & Experience:

- College or university degree.
- Minimum of 5 years' experience in Property Facultative reinsurance.
- Knowledge and understanding of the RMS Catastrophe Modeling, including the ability to analyze and interpret its output
- Proficient in MS excel or access, and an ability to create pricing tools to support day to day underwriting work flow
- Ability to organize and prioritize a demanding workload
- Strong interpersonal and communication skills and the ability to work with management at a senior level

Extensive travel and the ability to work overtime and weekends are expected.

Applicants will be tested on their underwriting skills with respect to the large commercial and industrial insurance property product and market, as well as their use of Excel modelling tools.

Written applications with a detailed résumé should be sent in confidence to:
