

RenaissanceRe Holdings Ltd., through its operating subsidiaries, is a leading global provider of reinsurance and insurance. Our team shares a passion for providing exceptional service, innovation, creativity and a strong belief in the entrepreneurial culture which is a cornerstone of our competitive advantage.

AVP Corporate Risk

Reporting to the SVP, Chief Risk Officer – Bermuda, the AVP, Corporate Risk is responsible for solving complex risk and pricing problems using and extending proprietary tools. Additional responsibilities include propagation of culture and technical skills to the wider underwriting and analysts groups.

Responsibilities include:

- Work with the U.S. Underwriters to present materials to clients or other internal and external partners
- Work with internal clients to define and solve quantitative business problems, including both short-term deal analysis where required and building and deploying long-term solutions
- Work with the risk development team to evolve current portfolio systems to anticipate new business needs and increase performance
- Use REMS and GPS systems to effectively extract, manipulate and report on modeling information regarding the assumed portfolio
- Create and expand modeling tools involving spreadsheet, database and web applications, including scripting tools
- Enhance portfolio systems to model and report on systematic risks across the whole Company
- Keep abreast of industry trends for analysis and risk modeling
- In conjunction with the Underwriters, lead the effort to ensure that system and data requirements and enhancements are devised, managed and executed

Qualifications, Skills & Experience:

- An advanced university degree with a concentration in a quantitative discipline such as finance, science, or engineering
- Demonstrated knowledge of technologies such as Python, databases, numerical computing, network programming, and Unix/Linux
- Experience building and maintaining significant software systems
- Experience with financial or risk modeling systems (such as portfolio optimization, asset pricing, credit risk or risk modeling)
- Prior experience in a reinsurance environment is advantageous
- Strong written, verbal and interpersonal skills with the ability to communicate professionally with underwriters and outside vendors
- Excellent project management skills
- An ability to work collaboratively within a team environment

This is a fast-paced business environment, demanding a strong work ethic and a results-oriented approach.
