

# Endurance

Endurance Specialty Insurance Ltd. is a global provider of property and casualty insurance and reinsurance. Endurance currently writes property per risk treaty reinsurance, property catastrophe reinsurance, casualty treaty reinsurance, property individual risks, casualty individual risks and other specialty lines. Endurance has been assigned a group rating of A from A.M. Best and A from Standard & Poor's. The Company's success is underpinned by its focus on state-of-the-art technology, analytical insight and strong, experienced management. Endurance invites applications for the position of:

## Vice President – Portfolio Management

The **Vice President – Portfolio Management** will be responsible for managing the collection and reporting of company-wide catastrophe exposures.

### Duties and responsibilities will include but are not limited to:

- Preparation and presentation of catastrophe exposures under various views of risk to internal and external parties (e.g., senior management, rating agencies, regulators, and reinsurers).
- Understanding and communication of applications, methodologies, and procedures in catastrophe modeling and exposure management.
- Quality control and continuous improvement of the efficiency and accuracy of catastrophe processes, data collection, and reporting.
- Establish real-time tracking of and management of catastrophe risk exposures at various geographic and business unit levels using various metrics (e.g., VAR, TVAR, MFL, AAL, RDS, and Limits)
- Coordinate post-event quantifications.
- Assist in the development of aggregation techniques and models for non-modeled perils or lines of business.
- Act as a technical liaison between modeling user groups, vendors, and IT personnel.
- Ad hoc projects as required.

### Desired skills and experience include:

- A university degree in the field of Engineering, Applied Sciences, Economics, Mathematics, or a related field.
- Strong technical training in math, computer science, engineering, physical science or related field.
- Completion of an insurance/reinsurance risk management qualification such as CCRA, CPCU, and/or a CAS designation is preferred.
- Sound knowledge of insurance/reinsurance terminology, principles, and processes.
- Ability to manage internal and external relationships and work effectively in a team environment.
- Ability to produce superior work results in an efficient and timely manner.
- Strong track record of process improvement related to modeling and measurement of catastrophe risk.
- Advanced modeling skills using RMS, AIR, and other leading industry vendor models in both insurance and reinsurance settings.
- Strong computer skills with knowledge of advanced modeling and analytical software (e.g., SQL Server, VB, C#) as well as Microsoft Office products.
- Excellent verbal and written communication skills.
- A strong work ethic, commitment to meeting deadlines and the ability to work on weekends and/or Public Holidays as required.

Applications will be dealt with in strict confidence and interested candidates should apply in writing or via email to:
