

Arch Investment Management Ltd. (AIML), based in Bermuda, is a wholly-owned subsidiary of Arch Capital Group Ltd., a leading insurance and reinsurance company. Arch Capital has more than \$4bn of capital and investable assets of more than \$12bn. Arch Investment Management Ltd. is responsible for managing the portfolios of Arch Capital and its subsidiaries. The continued growth of the company has created the need to fill two positions within our Investment division:

Vice President – Credit Analyst/Strategist

Reporting to the President of AIML/CIO of Arch Capital Group Ltd., the successful candidates will have primary responsibility for credit analysis and for monitoring Arch's corporate bond portfolio. In addition, this position will support the portfolio management team by delivering relative value trade ideas across industries, sectors and capital structures in both Cash and CDS markets. This position will also have responsibility for overseeing the progress and productivity of junior analysts.

Minimum Qualifications, Skills & Experience:

- An undergraduate degree from a top college or university, with a concentration in economics or finance
- CFA certification and/or graduate degree from a top college or university, with a concentration in economics or finance
- A demonstrated record of success spanning at least 8 years as a corporate bond credit analyst, strategist or portfolio manager at a major bank, investment bank, institutional money management firm or major insurance/reinsurance company
- Broad familiarity with global corporate credit markets, both cash and synthetic. Familiarity with the High Yield market and with structured products a plus.
- Significant experience with quantitative credit analytical tools such as Moody's KMV and its application to a multi-sector portfolio
- Demonstrated success in proposing actionable basis trades in corporate debt vs. single-name CDS or CDX
- Proven established relationships with corporate syndicate desks and with research departments of major brokers/dealers
- Experience overseeing and directing the work product of junior analysts

Written applications with a detailed résumé should be sent in confidence to:
