

Nova Limited

Nova is a software development consulting company. We provide custom software solutions, strategic information systems planning and design as well as automated infrastructure solutions for the finance and insurance industries.

Senior SharePoint Architect/.NET Developer

As a member of a dynamic team, you will be responsible for designing and developing custom solutions in a SharePoint 2010 and 2013 environment as well as the design, development, testing, support and documentation of client/server and web applications. You will work with our client's business leaders and analysts to define and document detailed requirements. It is expected that you will demonstrate the use of industry best practices and procedures in the complete solution development life cycle. You will need to manage your own time and manage client expectations.

Qualification Requirements:

- Minimum 5 years work experience in software engineering and work-related .NET development, preferably in C#
- Minimum 5 years practical experience with configuration and development of SharePoint 2007/2010/2013 and associated technologies
- Sound understanding of SharePoint application design principles including data access/storage, caching, security, performance, deployment and upgradeability
- SharePoint administration skills including, but not limited to configuration using central administration and PowerShell scripting
- Well versed in the SharePoint object model, IIS, XML and/or JSON
- Experience in using WCF, WPF, ASP.NET (preferably MVC), ADO.NET
- Microsoft SQL Server 2012 or 2008 R2 database development and administration
- Experience with Unit Testing Frameworks and SCRUM Methodology
- Object Oriented development and understanding of design patterns
- Excellent verbal and written communications skills with both business and technical personnel
- Ability to effectively prioritise and execute tasks under pressure
- Experience developing solutions in the financial industry. (Direct experience in software development at a bank, hedge fund, financial investment or insurance company)

Education Requirements:

- Computer Science degree or Microsoft SharePoint Certification

Upon request, applicants will be expected to submit in a code sample to demonstrate understanding of required qualifications.

Please submit a CV and cover letter to the following.
