► PRICING ANALYST

Our client, The Standard Life Assurance Company of Canada, Bermuda Branch, requires a Pricing Analyst. The Standard Life Assurance Company of Canada is looking to expand staff in its Bermuda Branch. As this is a small but expanding operation, all staff in the Branch require a flexible attitude and a dynamic skill set.

The Pricing Analyst will play a key role in delivering profitable growth within the Branch, primarily by supporting the Pricing Actuary in the preparation of new business quotations. This will involve:

- modeling the business using AXIS software.
- analyzing client companies' product lines, distribution methods, mortality experience, lapse experience, underwriting standards, risk management controls and market positioning.
- working with medical underwriters to develop conclusions on expected mortality.
- recommending the pricing basis to be used for particular quotations.
- preparing quotation documentation.

OTHER RESPONSIBILITIES INCLUDE BUT ARE NOT LIMITED TO:

- Performing detailed analysis related to establishing adequate assumptions, asset/liability matching, rate setting, periodic reporting, financial and risk analysis.
- Developing and producing studies including the various annual experience studies to show emerging company results and trends and to compare against expected results and long-term financial objectives.
- Developing financial projection models and analyzing and producing reports on the various studies and on the results of the financial projections.
- Participating in the costing of the new/revised products and services to provide the required profit and financial soundness in the long run, in compliance with the Canadian Risk Policies.
- Ensuring compliance with regulatory requirements and internal policies.
- Involved in a variety of tasks such as Product Development, Retention Management, Treaty Negotiations, Reporting & Valuation, Experience Analysis and Business Planning.
- Ad hoc responsibilities.

REQUIREMENTS:

- University degree in Actuarial studies, Mathematics or related field.
- Associate of the Societies of Actuaries (ASA) designation, or equivalent designation with other Actuarial Professional body. Ideally in process of studying to attain the Fellow, Society of Actuaries (FSA) designation, or equivalent designation with the other Actuarial Professional body.
- 3 to 5 years product development, marketing, sales or corporate actuarial experience.
- Knowledge of AXIS, ACCESS, Microsoft Office Suite or other relevant Database Software.
- Advanced knowledge of actuarial pricing, projection systems and necessary programming languages and software.
- Strong work ethic and analytical skills.

If your experience meets the above criteria, please send your resume and cover letter to **Marie-Pier Bélanger** at mpbelanger@frontier.bm.

Closing date: April 30th, 2013
