## Service Plumbing Mechanic

Bermuda Air Conditioning Ltd. is seeking to employ a Service Plumbing Mechanic. The successful candidate will be responsible for carrying out both new installation and repair work at client sites on a rotating on-call schedule of twenty-four hours a day duty, seven days a week, including Public Holidays. The successful candidate must possess a valid light or intermediate truck license and will be responsible for the maintenance of his/her van and equipment.

Applicants must have at least five years of relevant experience and a good working knowledge of water heating systems; all types of water and sewage pumping systems; plumbing fixture repairs; field wiring and the ability to troubleshoot plumbing system faults. Applicants must be experienced with pipe system layouts and be comfortable working with PVC, CPVC galvanized cast iron and copper piping. Good knowledge of all applicable building codes is also required. Candidates should be team players with excellent customer service and communication skills. Also important is the willingness to complete service tickets and customer reports. Candidates possessing a recognized industry apprenticeship or certification will be given preference.

**Closing date: June 24, 2013**

All applications should be submitted in writing with a resume and references to:
