Digicel™

Are you extraordinary?

Are you always looking ahead, seizing opportunities and creating a better future? If this describes you keep reading.
A Digicel employee is responsive, agile and caring. We push boundaries and are uncomfortable being comfortable. We question norms and we put our ideas into action. We care about our customers and we show it.- That's why 11 million customers worldwide including Bermuda choose and trust Digicel.

We are seeking an extraordinary Senior Systems Technologist.

Reporting to the Senior IP/IT/VANs Manager, the Senior Systems Technologist will be an integral part of our Technical Department.

Responsibilities include but not limited to:

- Responsible for the operation, maintenance and design of the ISP & Packet Core Network and all IP based systems to support the technical operations of the Bermuda network
- Support of equipment to provide 100% availability of all Value Added Network services
- Development, implement & support of all Packet Data based systems and adhere to Group procedures for their administration
- Coordination of all IP/ VANS related work and projects
- Training of the team
- On-call support for after-hours outages & planned works as required

The successful candidate will possess:

IBS Electronics Engineering, Computer Science, Electrical Engineering, Telecommunication or equivalent technical competence
- CICSO Certified
- Proven 5+ years' experience and knowledge of mobile packet core networks
- Strong IP Design & Integrations knowledge
- Excellent Project Management skills
- Ability to work unsupervised and handle multiple priority assignments simultaneously
- Good team player with excellent communication and interpersonal skills
