

TOMORROW'S VOICES

BERMUDA AUTISM EARLY INTERVENTION CENTRE

Our landmark facility in Bermuda specializes in providing ABA/Verbal Behavior Therapy for children with Autism Spectrum Disorders and Developmental Disabilities, is looking for a Senior Verbal Behavior Therapist to join our already established team of professionals. Tomorrow's Voices serves children from 2 to 21 years of age and provides services and strategies for clients as they transition from infancy through to adulthood. The core therapy used at Tomorrow's Voices is Applied Behavior Analysis with an emphasis on B.F. Skinner's Analysis of Verbal Behavior. Following is the post for which we are accepting applications.

SENIOR VERBAL BEHAVIOR THERAPIST

A professional Senior Verbal Behavior Therapist with Applied Behavior Analysis and Verbal Behavior experience is needed in order to design programmes and provide therapy to children with autism spectrum disorders and developmental disabilities as well as supervise and mentor junior staff. The Senior Therapist must have prior experience working with children with autism spectrum disorders and developmental disabilities. The Senior Therapist must be able to design and implement behavioral strategies with the children and their families within the home, community and school environments. A background in Applied Behavior Analysis, Special Education, or Psychology is required. Clinical competence in behavior therapy, cognitive-behavioral therapy, and family therapy is required. A minimum of 2 years commitment is required for this position.

JOB REQUIREMENTS

- Master's degree in applied behavior analysis, psychology, behavioral psychology, special education or equivalent
- Board Certified Behavior Analyst (BCBA) designation by the Behavior Analyst Certification Board (BACB) is required
- Knowledge of the research and literature on the causes, correlates, and treatments of Autism and disorders under the Autism Spectrum is required
- Hands-on experience working with children using Skinner's Analysis of Verbal Behavior within the Applied Behavior Analysis profession
- Previous experience must have previous experience using the Assessment of Basic Language and Learning Skills (ABLLS) and VB-MAPP curriculum tools
- A minimum of 3 years of prior experience working with children with Autism Spectrum Disorders and Developmental Disabilities using ABA/VB
- At least 2 years prior hands-on experience using B.F. Skinner's Analysis of Verbal Behavior
- Excellent supervisory skills, communication skills, and interpersonal skills

Qualified suitable candidates should forward their resume and at least two recent written references to the address below.
