Specialist Electrical Fitter

Bermuda Electric Light Company Limited (BELCO) invites applications from suitably qualified and experienced individuals for the position of Specialist Electrical Fitter.

This role is mainly responsible for carrying out preventive maintenance, periodic inspection, troubleshooting (fault location), installation; commissioning, testing and repair work on any item of generation electrical plant and equipment.

Key Job Accountabilities:

- Diesel engine and gas turbine driven alternators and associated auxiliary systems (HV and LV), distribution switchgear and controls, electrical drives, rotate machinery and associated operating systems, emergency power supply systems and generators, low voltage DC and control systems
- Perform LV switchgear testing, install cables and perform LV termination as well as maintain accurate records of all maintenance and repair tasks conducted
- Allocation of work to Electrical Fitters and Helpers
- Offer guidance and on-the-job training to those of lower grade while being able to work under minimum supervision

Key Job Requirements:

- Technical qualification such as BTEC, NVQ Level 3, City and Guilds Part II or equivalent in an appropriate discipline
- Minimum of four (4) years post apprenticeship programme or equivalent training with a recognised electrical manufacturer or utility company
- In-depth knowledge of plant operations and asset management
- Working knowledge of standard electrical practices
- Ability to interpret and follow equipment "workshop" manuals
- Ability to read and interpret technical drawings
- Able to work independently with minimum supervision/direction
- Able to accept responsibility for completing tasks in an economical and safe manner
- Proven abilities in on-the-job training, assessment and team coaching

If your experience matches this role please forward your cover letter and resume to:
