

# Sign Shop Technician

*We are seeking a creative individual who is enthusiastic and able to work under pressure in a demanding environment.*

*Applicants should possess the following credentials:*

- Minimum 2 years sign shop experience, incl. vinyl/film applications and sign assembly
- Knowledgeable in design and ability to use Adobe Illustrator, Photoshop and/or Coreldraw fluently (Over 5 years experience)
- Use industry software, printers/plotters (Flexisign, Flexi-Engrave, Summa)
- Able to manage print output, rip management and colour control
- Manage customer accounts - meet clients, compose/submit proposals/estimates (Quickbooks), process work orders and close out projects.
- Light van drivers license

Successful candidate will also be expected to work additional hours including weekends to meet project deadlines. Ability to communicate and gel with coworkers is a must. Capability to train junior technicians on the job will be a plus. Workshop experience (use CNC and power tools), fabrication and installation knowledge is a bonus but not a requirement.

*Please submit resume to [signworx@logic.bm](mailto:signworx@logic.bm) or deliver to 22 St. John's Rd, Pembroke HM02*

*Closing date: August 14th*
