

TRADING BUSINESS & SYSTEMS ANALYST

COMPANY DETAILS:

Orbis Investment Management Limited is a Bermuda-based investment company managing long-only equity, absolute return and balanced funds. Orbis strives to attract talented individuals who have demonstrated an ability to excel.

ROLE & RESPONSIBILITIES:

The successful candidate will join the 24-hour global trading team as a Business & Systems Analyst. The candidate will work closely with senior members of both the Technology and Trading teams to develop and maintain Orbis' in-house proprietary technology platforms and provide Trading support. Other major responsibilities include, but are not limited to, producing and automating trading reports, testing and reviewing application changes, conducting analysis of trading operational risk and counterparty risk and assisting with the development of trading policies, processes, procedures and risk controls.

KEY STRENGTHS:

Ability to quickly investigate, abstract and understand complex systems, including a thorough understanding of one or more object oriented programming languages, such as VB.Net. Accurate, with a keen attention to detail. Team player. Positive Attitude. Honest and reliable. Self-starter. Demonstrated good judgment. Diligent. Able to think quickly and clearly. Quick learner. Excellent communication, interpersonal, and organizational skills. Proven ability to work on challenging assignments in a dynamic environment. Strong interest in financial services, programming and risk management demonstrated through previous work experience or education.

TECHNICAL QUALIFICATIONS:

A minimum of 3 years' experience in the related functions is considered necessary in order to be effective in this position. The successful candidate will have a first-class academic record (GPA >3.5) from a reputable university in a numerate discipline, and at a minimum a Master's degree. Demonstrable graduate-level knowledge of quantitative modeling and software development skills in all of the following areas: SQL Server, VBA and VB.Net. Hands-on experience with software testing and test plan coordination.

SUBMISSION DETAILS:

Applications will be dealt with in strict confidence and interested candidates should apply in writing or via email with a detailed résumé to:
