Senior Web Developer

Our client, Nephila Capital Ltd., a Bermuda-based hedge fund manager, invites applications for the position of Senior Web Developer.

The successful candidate will be responsible for the design and on-going development of systems and web services that are used to create trading and portfolio analytics/risk metrics for a family of investment funds linked to reinsurance and weather derivatives.

Key Responsibilities:

- Work with the CTO to ensure business needs are met and prioritized accordingly
- Assist in the management of deployed application services building and deploying; web applications; web services; rich internet applications; SQL OLTP and OLAP databases
- Liaise with traders, portfolio managers and the analytics team to help define requirements

Minimum Qualifications, Skills and Experience:

- Minimum of 8 years direct experience in commercial software development using the Microsoft web stack
- At least a Bachelors degree in mathematics/ sciences/ information technology (or equivalent)
- Holds a Microsoft Technical Certification in web applications and /or services (MCTS)
- Has excellent working knowledge of Microsoft C#, LINQ, ASP.NET MVC, JavaScript, jQuery, HTML, CSS
- Possesses detailed exposure to Microsoft SQL Server 2005/2008 Database Development
- Proven experience using NHibernate and TSQL, and in dependency injection frameworks such as Unity, Autofac or Castle Windsor
- Proven strength in Scrum, continuous integration, test driven development, and distributed version control systems such as Git or Mercurial
- Proven track record of meeting tight deadlines in a fast paced environment
- Excellent problem solving skills and the ability to work independently or with a team
- Ability and willingness to work outside normal business hours, including evenings, weekends and public holidays, as business demands
