Specialist Electrical Fitter

Bermuda Electric Light Company Limited (BELCO) invites applications from suitably qualified and experienced individuals for the position Specialist Electrical Fitter. This role is mainly responsible for carrying out preventive maintenance, periodic inspection, troubleshooting (fault location), installation; commissioning, testing and repair work on any item of electrical generation plant and equipment.

Key Job Responsibilities:

- Maintain diesel engine and gas turbine driven alternators and associated auxiliary systems, motor control centers, electrical drives, rotating machinery and associated operating systems, emergency power supply systems and generators, low voltage DC and control systems
- Perform LV switchgear testing, installing cables and performing LV termination
- Maintain accurate records of all maintenance guidance to team members
- Offer guidance and on-the-job training to apprentices and lower grades while being able to work under minimal supervision

Key Job Requirements:

- Certificate of completion from a recognised apprenticeship programme or equivalent training with recognised manufacturer or utility company
- Technical qualification such as BTEC, NVQ Level 3, City and Guilds Part II or equivalent in an appropriate discipline
- Minimum of four (4) years experience post apprenticeship
- In-depth knowledge of plant operations and assets management
- Working knowledge of standard electrical practices
- Good verbal and written communications skills
- Ability to interpret and follow equipment "workshop" manuals
- Ability to read and interpret technical drawings, manuals and standards
- Able to work independently with minimum supervision/direction
- Able to accept responsibility for completing tasks in an economical and safe manner
- Proven abilities in on-the-job training, assessment and team coaching

If your experience matches this role please forward your cover letter and resume to:
