

RenaissanceRe Holdings Ltd., through its operating subsidiaries, is a leading global provider of reinsurance and insurance. Our team shares a passion for providing exceptional service, innovation, creativity and a strong belief in the entrepreneurial culture which is a cornerstone of our competitive advantage.

## VP Reinsurance

Reporting to the SVP Underwriting, the VP Reinsurance will be responsible for the production, marketing and analysis of reinsurance, predominantly Property Catastrophe lines. The successful candidate must possess a strong worldwide Property Cat Excess of Loss background with a focus on International business, established broker and client relationships, and an ability to lead by example to garner immediate credibility both inside and outside the organization.

### Responsibilities include:

- Manage and underwrite a portfolio of Property Cat XL covers, both US and International, with a focus on International business
- Work with various data sources to derive information for analysis purposes
- Verify and assess the adequacy of exposure information for pricing analysis
- Conduct analysis and modeling, concluding with recommendations on assumed primary and retrocessional catastrophe excess of loss submissions, capital market transactions and non-catastrophe risks
- Maintain key relationships with clients and brokers of Property Catastrophe reinsurance, and develop new business opportunities
- Work with clients to determine specific requirements, subsequently structuring products to address those needs (and variants from those needs)
- Assist in projects related to the improvement of RenRe's proprietary model: to include Catastrophe modeling; underwriting; and portfolio management
- Oversee catastrophe analysts through both transactional and project-focused management
- Engage in significant travel and interaction with clients and brokers

### Education, Skills & Experience:

- A university degree essential with emphasis on economics, math probabilities, statistics techniques or simulation; advanced scientific degree advantageous
- At least 10 years' experience in the reinsurance industry, with a large portion in an underwriting capacity

- Experience in structuring and pricing reinsurance programs
- Detailed knowledge of worldwide insurance and reinsurance markets
- Knowledge of accounting implications of reinsurance structures
- Extensive industry contacts including established relationships with London/Lloyd's brokers
- A strong reputation and proven track record of developing relationships with intermediaries and clients, while retaining complete underwriting objectivity
- Thorough understanding of computer systems and applications
- Experience with, and knowledge of, different catastrophe models
- Proficient knowledge of probability and statistics
- Proficient in Microsoft Office suite of tools as well as additional programs such as @Risk; SQL
- Excellent analytical, communication and interpersonal skills

This is a fast-paced business environment, demanding a strong work ethic and a results-oriented approach.
