Project Manager

HSBC Technology Services

Closing date 27 September 2013

HSBC Bank Bermuda Limited is seeking a PMP Certified Project Manager for its Software Delivery Division. The successful applicant will be responsible for all Project Management activities for a business or technical area, or a specific section of a major business or technical area, including the support of multiple systems/services and possibly the development of major or new systems or system enhancements. The incumbent will also be responsible for best practice project management implementations and delivery of high quality services or products within agreed scope, schedule and budget.

Major responsibilities

- Initiating, developing and implementing new systems, services, products and /or processes for the business or technical areas and providing and/or coordinating analysis and design of system enhancements or new system development projects.
- Developing plans for new projects, budgetary estimates, implementation schedules, identifying resources, and associated risks for initiatives. Obtaining necessary Program Management Office approvals and managing cross functional workgroups.
- Providing comprehensive end to end project management; identifying, understanding and mitigating against Risks to the Bank and its customers, ensuring compliance with all Audit and Internal Controls requirements.
- Lead cross functional, geographically diverse teams effectively, with the ability to work in evening hours with offices in other jurisdictions, especially in Europe and Asia.

Minimum qualifications

- Minimum of a Bachelor's degree preferably in Computer Science or other technology related area; experience in managing system design lifecycle projects an asset.
- Must possess a PMP (Project Management Professional) certification in good standing.
- At least five years' experience in a similar role, preferably within the Financial Services industry.
- Expert knowledge in computer user applications with the ability to analyse problems, prepare reports and make recommendations for improvements, Business Transformation project experience, Vendor management and contract negotiation would be a considerable asset.
- Ability to successfully manage project independently as well as within a larger programme framework.
- Strong written and verbal skills required, in addition to organization, time management and project management skills.
