

The Company

This is a new position of Senior Risk Analyst at ILS Investment Management Ltd ("ILSIM"), an independent investment manager headquartered in Hamilton, Bermuda. ILSIM is part of the Armour Group (Armour); a Bermuda based group of insurance, reinsurance and service companies which specialize in the creation and implementation of solutions and acquisitions within the distressed, discontinued and other specialty sectors of the global insurance and reinsurance marketplace. ILSIM focuses on non-Catastrophe insurance and reinsurance transactions. The principals of the Armour Group are acquisition oriented and this position will require the applicant to participate in the assessment and execution of M&A transactions in this space.

Role Description

The role will require the analysing, modelling, preparation and documentation of re/insurance companies and portfolios, in particular the actuarial and financial modelling to support transaction pricing decisions. Ability to work as part of a multi-disciplinary team assisting in transaction analysis with claims and finance units is fundamental to the position.

The role requires a broad actuarial background covering a range of non-Catastrophe Property & Casualty lines of business, encompassing knowledge of insurance and reinsurance principles, practices and procedures including loss development analysis and commutation experience.

Qualifications and Skills Required

An Actuarial qualification FCAS, FIA or equivalent is required

Project Management experience

Strong communication and interpersonal skills

Ability to work effectively both at managerial levels and with a range of professionals from different disciplines both internally and externally

Excellent organizational skills

Sound decision-making and problem solving skills

Experience in the insurance or reinsurance sector essential

Please apply in writing, no later than October 15, 2013, with a detailed resume to: Ailsa Martin, Head of Human Resources:
