EMPLOYMENT OPPORTUNITIES

Temporary .Net Developer

Our client is looking for a candidate in the capacity of Temporary .Net Developer with strong testing, development and reporting skills.

The developer must have all skills and/or experience listed below:

- Visual Studio LightSwitch (C#,HTML5, JavaScript) for development.
- Microsoft Team Foundation Service for source control.
- Microsoft SQL Server database.
- Windows Azure/ SQL Azure for cloud services (hosting).
- IIS 8 for on premise hosting.
- Crystal Reports or Telerik Reports for reporting.

The primary role will involve testing, client side development using HTML5,CSS and JavaScript and report design. The candidate will have to produce a simple web site using the required technology (LightSwitch/ Windows Azure/SQL Azure).

Please submit a full resume and references to info@bes.bm
