

We're hiring Actuary.

We require an actuary to assist our clients with economic capital modeling, determination of loss reserves, audit support, risk management and other actuarial consulting engagements. Candidates should also possess the following:

- Fellow or Associate of the Casualty Actuarial Society or equivalent, preferably with three or more years of Property & Casualty reserving experience
- Significant capital modeling experience, including knowledge of dynamic financial analysis modeling platforms
- Experience with respect to the Bermuda Monetary Authority's regulatory regime for Solvency II equivalence preferable
- Significant experience with managing staff
- Ability to manage competing priorities
- Strong client communication skills, both written and oral
- Ability to successfully communicate actuarial concepts to non-actuaries
- Prior consulting experience desirable
- Self-motivated with robust marketing skills; an ability to influence; and develop strong business relationships

Applications should be sent in writing,
marked "Private & Confidential",
by January 3, 2014 to:
