

DIRECTOR OF SALES

Gateway Systems Limited requires a Director of Sales to assist in the expansion of our current client base.

This senior position, requiring ten (10) years of experience in a similar technical post, deals with all aspects of our business. Knowledge of SMART Technologies products is essential as is working knowledge of Bang and Olufsen equipment. This person will report directly to the Managing Director, and deal with all our Vendors and liaise closely with all other departments to ensure we deliver high level of Information Communications Technology (ICT) results to our clients.

The successful applicant must have proven experience in Account and Project Management in a similar environment with emphasis on technical solutions and service delivery. Sound knowledge with certification, of Microsoft and other licensing is essential as we currently work with the majority of businesses for their licensing and Software Asset Management.

Gateway can provide the successful applicant with the on-going training required in the Information Communications Technology to stay at the top of the field.

The company offers a very competitive performance based compensation and benefits package.

Gateway is one of the leading suppliers of ICT software, education and technical services in Bermuda, and a Microsoft Gold Certified Partner. Our local software development team has a proven, demonstrable expertise in delivering integration and bespoke software to assist businesses improve productivity.
