

Network Administrator

Bermuda Commercial Bank ("BCB" or "the Bank") is seeking a suitably qualified individual for the position of Network Administrator. The Network Administrator will be responsible for the maintenance and administration of the BCB IT systems, as well as the design, sourcing and implementation of future enhancements and upgrades to the Bank's IT environment.

Duties and Responsibilities:

- Design, implement and maintain banking systems security policies and procedures
- Design, implement and maintain the Bank's network architecture maximising application and systems performance
- Define and monitor network and application performance measurement criteria
- Define and monitor network error detection and prevention procedures
- Design, implement and maintain the telecommunications environment
- Develop and maintain efficient system backup and restore processes
- Develop and maintain the systems component of the business recovery and continuity processes
- Provide assistance to helpdesk personnel when required
- Maintain system patch and security levels
- Weekend and after hours when required

The successful applicant should possess:

- At least 5 years' experience in a mixed Windows-based network environment
- A university degree in an information technology discipline or demonstrable equivalent work experience
- An interest in and a passion for information technology in general
- Relevant MCSE, MCTS 2008, VCP 4/5 qualifications
- Windows 2003/2008 Active Directory and Exchange 2007/2010 experience
- Familiarity with a range of database platforms and their respective versions including SQL Server, Microsoft Access and FileMaker
- Extensive VMware and VMware View (VDI) virtualization experience

Studying towards or have any of the below:

- CISSP – Certified Information Systems Security Professional Certification
- Microsoft SharePoint Server IIS6/7 Apache tomcat, IBM http server experience
- SWIFT financial messaging system
- Experience in configuration of CISCO Switches and Routers
- On and off site disaster planning, testing and recovery experience

Reporting to the Senior Network Administrator, the successful applicant will work with both business and technical staff, applying their technical knowledge and networking experience to ensure delivery of a reliable, efficient, high-performance technical environment. Building on the existing architecture, the successful candidate will maintain high systems availability, implement and maintain a comprehensive network security policy and maintain the Group's DR site, communications, systems software, applications software and all hardware.

Compensation will be commensurate with the successful candidate's experiences and will include a base salary and a discretionary performance related bonus. References will be requested and verified. Interested persons should apply by forwarding an application letter and resume no later than **January 27th, 2014**, either by email to **jobs@bcb.bm**, facsimile at (441) 295-4759, or by post to Human Resources Department, Bermuda Commercial Bank Limited, PO Box HM 1748, Hamilton HM GX Bermuda. For questions please call (441) 295-5678 and speak to the Human Resources Manager.
