Senior Systems Engineer

About the Job:
Our clients expect the best and that is what we are looking for, so if you are that high quality individual
who is professional in all aspects of your work, then Beta Tech is interested in talking to you about
joining our team.

Task Descriptions:
- Work with CTO to ensure business needs are identified, prioritized and accomplished flawlessly in a timely fashion.
- Function as a Technical Architect and Project Contributor for all company clients.
- Work on continuous improvement, refinement, automation and upkeep of the **end-to-end** network infrastructure.
- Resolve day to day help desk related issues.

Technical Requirements:
- Expert Knowledge of technical infrastructure for 2003/2008/2012 Windows server environments.
- Expert knowledge of VMware vSphere 4/5.
- Expert knowledge of MS Exchange 2010/2013
- Expert knowledge of SAN & Disaster Recovery Technologies.
- Candidate must have minimum 5 Years of "hands on" experience.

Please send resume at hr@betatech.bm to apply.
All enquiries will be dealt with in strict confidence.
Closing date: January 31, 2014
