

SENIOR SYSTEMS ENGINEER

COMPANY DETAILS:

Orbis is a Bermuda-based investment company managing long-only equity and absolute return funds. Orbis strives to attract talented individuals who have demonstrated an ability to excel.

ROLE & RESPONSIBILITIES:

As a Senior Systems Engineer you will develop, implement and maintain computing, storage and virtualization solutions. You will produce formal documentation on architectural considerations, backup and recovery techniques, replication, performance monitoring and troubleshooting.

The main responsibilities include installing, configuring and maintaining CISCO/HP Data Center Computing, EMC Storage, VMware virtualization solutions, Windows 2008 R2 servers, Exchange 2010, AD and related Windows networks. You will also provide hands-on technical assistance to other support personnel. Finally you must be able to review new and existing system and network implementations to ensure compliance with established policies, standards, licensing agreements and configuration guidelines.

This is a progressive role with the opportunity to work with emerging Systems and Data Center technologies. You must therefore be able to stay current with emerging IT technologies and advise on those that will increase cost effectiveness and flexibility.

KEY STRENGTHS:

Accurate with a keen attention to detail; able to quickly investigate, abstract and understand complex systems.; positive attitude, combined with an honest and trustworthy manner; extremely self-motivated with demonstrated good judgment and a methodical approach to problem solving; excellent communication skills and organizational skills.

TECHNICAL QUALIFICATIONS:

The successful candidate will possess a bachelor's degree with an outstanding academic record from a reputable university with a minimum 2:1/GPA3.5, or equivalent, degree. This position requires a demonstrable understanding of blade servers, storage networking, virtualization fundamentals, concepts, and components. Formal training and/or qualifications in these areas is desirable e.g. VCP, VCAP and Data Center Specialization (e.g. CCENT, DCSNS).

SUBMISSION DETAILS:

Applications will be dealt with in strict confidence and interested candidates should apply in writing or via email with a detailed résumé to:
