SharePoint Developer

On behalf of our client Bespoke Software, a leading software development company in Bermuda, we are seeking a talented, experienced individual for the position of SharePoint Developer.

Duties & Responsibilities:

The SharePoint Developer will be required to gather and refine business requirements with the client, architect SharePoint solutions to meet the requirements, build, maintain and support the new solutions as well as extend and support existing SharePoint solutions.

The successful candidate will be one of those exceptional people with combined talents. You have both an aptitude for software development and the business acumen required for understanding clients' needs and matching those to effective, value-add SharePoint solutions.

You are not just one of those consultants with enough technical know-how to write a site, you really have the knack to craft a great solution which addresses business needs and have demonstrated this a few times already.

The SharePoint developer will be expected take a team lead role on projects and to mentor and assist more junior members of the Bespoke SharePoint team.

You will be expected to contribute to the SharePoint team's best practices and standards while also having a good sense of timelines and budgets to ensure effective and timely project delivery.

Minimum Skills, Qualifications & Experience:

- University Degree in Computer Science, Business, Science or Technology based subject.
- At least 5 years' experience in developing SharePoint solutions
- Ability to manage client engagements
- Proven experience in working with best practices
- Excellent written and oral English communication skills
- Experience mentoring or training staff
- Ability to work in a small team and multi-task with a variety of clients

Advantages:

- SharePoint installation and administration knowledge
- Re/Insurance and Financial institution knowledge
- Experience with Microsoft product stack (Database, SSAS, SSIS, SSRS)
- Data Integration experience
- Microsoft SharePoint Certification
- Covey thinking
- Experience with Agile methodology

Bespoke software prides itself on delivering high quality SharePoint solutions to our clients and is seeking a candidate that shares these values. Bespoke uses Agile methods, perfect for this toolset, our teamwork is based on win/win philosophies and we reward well.

Interested applicants please apply to: Laura Jackson via email; laura@iep.bm

Closing date for applications: June 27, 2014
