

American International Company Limited

Invites applications for the position of:

**MANAGER ENERGY AND
CONSTRUCTION EXCESS CASUALTY**

The successful candidate will be responsible for the Management and results of the Bermuda energy and construction excess casualty book of business.

Duties and Responsibilities:

- Establish and implement underwriting guidelines and product line strategies, including class of business, rate, form and terms and conditions to ensure consistent underwriting for all accounts for mid and high energy and construction excess casualty
- Act in a referral capacity for both the U.S., Canada and Bermuda for mid and high excess energy and construction casualty placements
- Manage aggregation of limits and ensure adherence to management of AIG casualty limits as directed by AIG Global Casualty Chief Underwriting Officer and to best deliver a OneAIG solution
- Manage the Bermuda energy and construction excess casualty portfolio to ensure profitability
- Liaise with other AIG Product Line Managers and ensure underwriting guidelines are consistent with those prescribed by the AIG Global Casualty Chief Underwriting Officer
- Assist/support in placement of facultative reinsurance
- Talent management and development

Qualifications and Experience:

- University degree
- Preferred minimum of 15+ years of underwriting operational management experience in Primary Casualty and/or Excess Casualty
- Technical training in Risk Management and Insurance, and an ACII or CPCU designation preferred
- Extensive experience in the energy industry space including knowledge of energy marketing landscape
- Strong underwriting background
- Solid understanding on integrated occurrence form, excess follow forms, Bermuda market forms, ISO forms, and experience with varied manuscript language
- Broad based global insurance industry experience including overseas markets
- Analytical and quantitative skills
- Proficient computer software skills
