

SENIOR 'ALTERNATIVE RISK' UNDERWRITER

Argo Re Ltd. (Argo Re) is a member of Argo Group, an international specialty underwriter which offers through its operating subsidiaries commercial Property and Casualty insurance and reinsurance products and services that are tailored to the needs of businesses and public entities. We leverage the experience, discipline and expertise of our people and an understanding of our customers' needs to provide a diverse portfolio of products and services.

Argo Re, is inviting applications for the position of **Senior "Alternative Risk" Underwriter** to work in their Bermuda office.

The proposed role will evaluate, produce and service new and previously untapped business lines to build a complementary portfolio of innovative "alternative" products necessary to keep pace with the fast changing demands of customers. The role requires a rare blend of mathematical ability, interpersonal skills and market experience with the ability to leverage relationships with new and existing customers and intermediaries to develop innovative solutions. The candidate will be a pro-active, enthusiastic and energetic individual capable of working in a close-knit team for a fast moving and dynamic organization. As Argo Re conducts business in a variety of different time zones, the successful candidate must be prepared to work additional hours as and when required by the demands of the business. The role will entail overseas travel to promote and service the business needs.

Duties and Responsibilities:

- Producing new "structured business" opportunities for both existing and potential clients.
- Designing and constructing bespoke products to profitably deliver reinsurance solutions to core customers across multiple lines of business.
- Using meta-analytical techniques and software to actuarially determine optimum pricing levels and portfolio vulnerability.
- Contributing to the development of the existing traditional reinsurance portfolio through interaction with the current underwriting team.
- Assisting on occasion with mathematical verification and validation of inuring reinsurance structures for both Argo Re and Argo Group.
- Assisting with the business planning process and implementation of Argo Re's portfolio to deliver enhanced returns.
- Assisting with the process of maintaining, enhancing and developing actuarial models as required.
- Collaborating with Argo Group's internal risk modeling teams.
- Attending industry conferences and undertaking overseas travel to meet and develop new business opportunities.
- Providing assistance when required by performing other work related duties, which may arise from time to time.

Qualifications:

- A minimum of 7 years experience in the insurance/reinsurance industry.
- A University Degree in a relevant discipline (math or science).
- Fully qualified in actuarial science.
- Experienced in operation of stochastic based software tools.
- Strong organizational skills, verbal and written communication skills.
- Some experience of the Lloyd's and international marketplaces would be beneficial.
- Ability to work successfully as part of a highly motivated team is mandatory.

Qualified candidates should submit a detailed résumé with references to Human Resources, Argo Group, P.O. Box HM 1282, Hamilton HM FX or to hrbermuda@argolimited.com.

Closing date for applicants is
August 5, 2014.
