

**BAE**  
Bermuda Alternate Energy  
LIMITED

---

## **Solar/Alternative Energy Installer Technician**

Bermuda Alternate Energy Ltd. is seeking a dynamic self-motivated individual with excellent interpersonal skills for the above position. The successful candidate will be required to work in close collaboration with our team of engineers, project managers and installation technicians within the BAC Group of Companies.

### **Duties and Responsibilities**

- Generate leads, perform site surveys, determine Client's requirements/opportunities, analyse building drawings, prepare proposals, and assist with successful installations for residential, commercial and institutional buildings with minimum supervision
- Coordinate energy savings estimates and code compliant system designs with our Engineering Department, Clients, or their Architect, and other Engineers or Contractors
- Work closely with the divisional manager and personnel to develop successful marketing strategies and achieve growth targets

### **Required Qualifications and Experience**

- Strong presentation skills including the use of MS PowerPoint
- Proficient with MS Excel and Word
- Minimum of 3 years experience in a building related trade

### **Preferred Qualifications and Experience**

- Technician's diploma in either Engineering, Science or Business preferred, but other building systems (electrical or mechanical) experience may be considered
- Thorough knowledge of Building Energy Systems, Solar Energy Systems, Small Wind Energy, Inverters, Batteries, Heat Recovery and Heat Pump Water Heaters
- Energy audit experience
- Experience with AutoCAD, Revit or other CAD programmes.

*BAE, as a member of the BAC group of companies, adheres to a policy of a drug free workplace.*

### **Closing Date: August 20, 2014**

All applications should be submitted in writing or by email with a resume and references to:
